Subject: **INTIMATION OF CONFIRMED OR SUSPECTED HIV CASES THROUGH ONLINE REPORTING MECHANISM**

Punjab AIDS Control Program (PACP), working under the administrative control of the Health & Population Department (H&PD), is mandated to provide preventive, diagnostic, counseling, and

PACP Complex, 6-Birdwood Road, Lahore

Ph# 042-99201092, 042-99201093

treatment services to People Living with HIV/AIDS (PLHIVs) through a network of HIV/AIDS Treatment Centres across all 36 districts of Punjab.

2. Timely identification, reporting and linkage of HIV-positive individuals to care and treatment services are essential for effective disease management, prevention of further transmission and safeguarding public health. In order to streamline and standardize the reporting process and to ensure patient confidentiality, PACP has now developed an **online case reporting mechanism** that ensures real-time data collection, direct case reporting and rapid response.

3. Foregoing in view, you are advised that all confirmed or suspected cases of HIV identified at your health facility through diagnostic test must be reported within 24 hours of diagnosis on the PACP's case notification website: **<https://notifypacp.com>** responsibly and in accordance with strict confidentiality and data security protocols. The Punjab AIDS Control Program (PACP) Head Office will continue to oversee compliance with this reporting system and remains available to extend technical assistance or guidance, as required. Furthermore, it is notified that this new online reporting mechanism supersedes the practice of submitting HIV case notifications via email and post. All future case notifications must be made exclusively through the designated website: **<https://notifypacp.com>**.

4. Your timely cooperation in adhering to this revised protocol will greatly enhance the efficiency and effectiveness of the Program's HIV surveillance and treatment efforts.
